

Unlocked Data – Release 2.14.74 (AKS)

Version 1.0

22nd September 2023

John Diment, Unlocked Data

Information Classification: CLIENT

Azure Release Updates

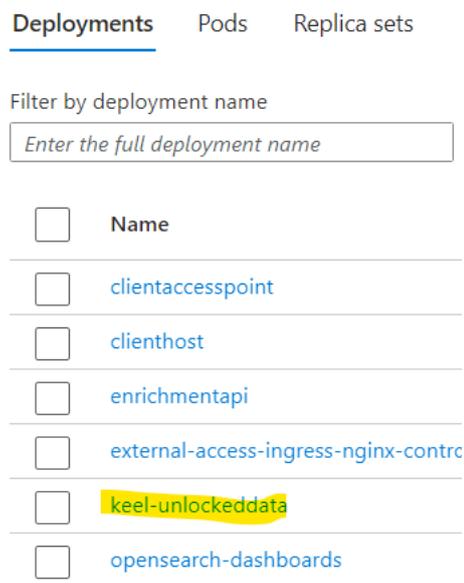

In this release there is a requirement to update Keel and Management Portal YAML entries.

Please follow the instructions below.

Keel Upgrade

We want to move to managed upgrades for Keel and that meets moving away from the "Latest" tag.

1. Within your Kubernetes environment in Azure, navigate to "Workloads" and click "Deployments".
2. Click on the Keel deployment:

3. Select YAML from the left menu.
4. Scroll down the YAML to the image value.
5. Change the image to: **unlockeddata.azurecr.io/keel:0.19.1**

```
271 |         spec:
272 |           containers:
273 |             - name: keel-unlockeddata
274 |               image: unlockeddata.azurecr.io/keel:0.19.1
275 |
```

6. Click the "Review + save" button.
7. Click to "Confirm manifest changes".

Management portal

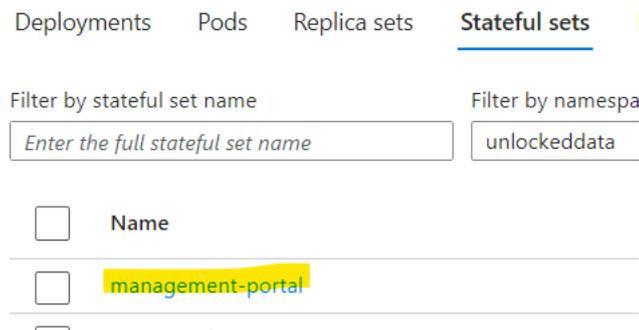

We want to upgrade the database of the Management Portal in this step.

1. Within your Kubernetes environment in Azure, navigate to "Workloads" and click on "Stateful sets".

Information Classification: CLIENT

2. Click on the Management-Portal:

3. Select YAML from the left menu.

4. Scroll down the YAML to the "Management-Portal-Database" container.

5. Change the image to: **unlockeddata.azurecr.io/postgres:13.12**

```
354 |         - name: management-portal-database
355 |           image: unlockeddata.azurecr.io/postgres:13.12
```

6. Click the "Review + save" button.

7. Click to "Confirm manifest changes".

Opensearch Upgrade

We're upgrading openSearch to version 1.3.12.

1. Within Keel click to upgrade the OpenSearch databases:

```
statefulset/unlockeddata/opensearch:1.3.12
```

2. After 60 seconds, click to approve the Dashboard upgrade:

```
deployment/unlockeddata/opensearch-dashboards:1.3.12
```

Solution upgrades

You can now proceed to upgrade all remaining containers in Keel.

1. As always, update the Management Portal, wait for 2 minutes, and then upgrade all other containers.
